## Chowly + Clover Integration

Extend Your Off Premise capabilities beyond what Clover can do alone. Perfect for those seeking cost-effective solutions tailored to high-volume deliveries.

### 1 Improved Online Ordering Experience

Chowly's user-friendly platform ensures an efficient online ordering process with an intuitive interface for customers.

### 3 Swift and Real-time Updates

Be unique with the only 3rd Party Aggregator handling Nested Modifier© and push multiple menus into VR/Ghost Kitchens.

### 2 Detailed Reporting

Integrated POS reporting for deeper insights and granular features to advance your analytics and strategic decision-making.

### 4 Focus on SMB Operators

Smooth setup with dedicated support and minimal hardware needs, ensuring SMBs can get started right away.

## Why Chowly with Clover?

### Top-notch Support

Chowly's dedicated customer support team ensures that you and your clients receive the assistance needed promptly.

### Unique Third-party Integrations

Chowly's ability to integrate other TOOS is a game changer. Chowly supports 150+ third-party platforms, including those specific to certain regions, such as Skip the Dishes, Eat Street, Bite Squad, and Fatwan.

### Restaurant Control Center (RCC)

View all delivery integrations in one hub for consolidated data and business insights and take control of upcharges.

### Training and Support

Our team provides training sessions to alleviate challenges, enhance efficiency, and boost revenue.

### Affordable Pricing

Chowly provides outstanding value with budget-friendly pricing, ensuring top-notch service without compromising your budget.
